SHRIRAM JADHAV

ELECTRICAL ENGINEER | QUALITY & MAINTENANCE | ELECTRICAL TESTING | BMS

HAL Township, Ojhar,Maharashtra, India | 8669041287 / 9175448742 | shriramj004@gmail.com

PROFESSIONAL SUMMARY

Electrical Engineer with practical exposure to industrial electrical systems, maintenance activities and an aerospace manufacturing environment. Familiar with electrical equipment, troubleshooting, preventive maintenance, transformers, HT/LT systems, electrical panels, SLDs, cable schedules, lighting systems and technical documentation. Interested in Electrical Utilities Maintenance and electric-vehicle manufacturing environments.

CORE SKILLS

Electrical Utilities Maintenance • HT/LT Systems • Transformer Operation • Electrical Panels & Switchgear • Preventive & Corrective Maintenance • Electrical Troubleshooting • SLD Understanding • Cable Schedule & Lighting Layout • Motors • Electrical Safety • Technical Documentation • MS Excel / MS Office

PROFESSIONAL EXPERIENCE

Hindustan Aeronautics Limited (HAL) — Apprentice Trainee – Electrical / Technical | Nashik | 1 year

- Worked in an aerospace manufacturing/maintenance environment with exposure to industrial electrical systems and equipment.
- Performed system checks on SU-30 aircraft electrical and avionics systems as per approved maintenance procedures.
- Assisted in electrical system testing and fault identification using Varies Tester.
- Assisted in MIL-STD-1553 MIL Bus testing and communication status verification.
- Supported continuity checks, electrical interface verification, and troubleshooting activities.
- Assisted in identifying system faults and recording test results as per maintenance documentation.
- Followed aircraft maintenance procedures, safety precautions, and quality standards.
- Assisted in inspection, maintenance and troubleshooting activities.
- Followed electrical safety procedures and maintenance practices.
- Worked with technical drawings, wiring/harness-related documentation and equipment.
- Coordinated with technicians/engineers during maintenance activities and maintained technical records.

Arohit Precision Power Limited — Technical Engineer | Waluj MIDC | 1 Year

- Worked with Building Management System (BMS) and related building electrical/utility systems.
- Assisted in monitoring and troubleshooting electrical equipment and operational issues.
- Supported preventive and corrective maintenance activities and technical reporting.

EDUCATION

❖ Bachelor's Degree in Electrical Engineering | BNCOE Pusad|	2022	Percentage: 84.64 %
❖ Diploma in Mechanical Engineering | Hi-tech Polytechnic Collage |	2018	Percentage: 63.51 %
❖ Secondary School Certificate | Panchsheel High School and Junior College |	2014	Percentage: 49.08 %
❖ Higher Secondary Certificate | Vivekanand High School,Hadgaon |	2012	Percentage: 71.09 %

TECHNICAL KNOWLEDGE

HT/LT Systems • Transformers • Motors • MCC/PCC Panels • Circuit Breakers • Relays • Cable & Wiring Systems • SLD • Lighting Systems • BMS • Industrial Safety • Preventive Maintenance

TARGET ROLE

Electrical Utilities Maintenance | Quality & Maintenance | Electrical Testing | BMS
